LIFE ON THE HIGH SEAS

BETWEEN 1787 and 1900, over 1.6 million immigrants, including around 160,400 convicts, travelled to Australia by ship in search of a better life.

The book looks at the reality of life onboard, from cramped conditions, convict companions, unpalatable food, disease, rough weather and boredom, to the community and relationships established on a life-changing journey.

It’s a compelling look at the sea voyages of migrants who shaped Australia.
